INTRODUCTION.

ON seeing Major Leslie's list of Madras Artillery Officers, I addressed the Secretary R.A. Institution, inquiring if the publication of a list of Bombay Artillery Officers was contemplated, offering to do my best to compile a list, if not already in hand, and thus, with General Stubbs's history of the Bengal Artillery, complete the records of the three Indian Corps. My offer was gratefully accepted by the Committee of the R.A. Institution, and the following compilation is the result of research among the records of the India Office.

I regret existing records do not permit the services of the original companies being made more complete; but what has been elicited regarding the early days of the Regiment, will, I trust, be found to contain much of interest to the officers of the Royal Regiment of Artillery, and to relatives of deceased officers of the Bombay Artillery.

My thanks are due to the Secretary of State for India, for access to the records; and to officers of all departments of the India Office, for their invariable courtesy and aid; to the Government of Bombay; the Committee of the R.A. Institution and its Secretary, Major A. C. T. - Boileau, R.A.; to Colonel E. S. Standbridge, R.A., Inspector-General of Ordnance, Southern Circle, India; also to officers and others who have helped with information or documents, especially General H. Le Cocq, Colonel Commandant R.A., Major-General T. C. Crowe, Colonels T. N. Holberton and E. S. Torriano, retired R.A.

THE
EARLY DAYS OF THE REGIMENT.

THE BOMBAY ARTILLERY.

PART I.

THE EARLY DAYS OF THE REGIMENT.

THE old regimental Records say that, prior to the year 1748, the Bombay Artillery existed only as a part of the Bombay Regiment (2nd Battalion Royal Dublin Fusiliers), to the several companies of which a small detail was assigned, and the whole denominated the "Gun-room Crew." The first muster-roll found is dated York Fort, 1 December, 1708, and is as follows :—

Gunner, Peter Warren.
Gunner's mate, Daniel Daniel.
Assistants, Thomas French.
„ Anthony Madras.
„ Newree Cawn Lascar.
Cooper, Peter Masson.

Cooper, Itaman padree.
Carpenter, Thomas Field.
Chief Guardian of Staves, James
Clarck.
Sub-Guardian, William Robinson.

1710. The Gunner is also styled "Gentleman of Arms."
1714. Gunner, Thomas Morgan.
1715. Gunner, Thomas Page.
1716. In January, 1716, Captain George Vane, Engineer, heads the roll, promoted to Major, October, 1718, and disappears.
1718. Gunner, Matthew Wood.
1724. Master-Gunner, P. Passwater.
1726. Master-Gunner, William Saunderson.
1729. Master-Gunner, W. Saunderson, styled "Captain of the Artillery."
1733. Master-Gunner and Captain of the Artillery, Thomas Mace.
1745. Master-Gunner, Isaac Ainsworth.
1746. Master-Gunner, Hugh Cameron (1).
1748. In June, 1748, the Honourable Court of Directors of the East India Company sent out the following instructions for the formation of a company of Artillery :—

REGULATIONS FOR THE FORMING, DISCIPLINING, AND GOVERNING A COMPANY OF ARTILLERY AT BOMBAY, AND FOR THE BETTER MANAGING, AND KEEPING IN GOOD ORDER, THE ORDNANCE, SMALL ARMS, AND MILITARY STORES, TOOLS, UTENSILS, AND OTHER HABILLMENTS OF WAR.

As it is intended to abolish the offices of Gunners, Mates, Quarter-Gunners, and Gun-room Crew, and to substitute in lieu of them a regular Company of Artillery for the better defence of our Settlements in time of danger, and for the training of a regular and disciplined Corps for the Ordnance Service, we do hereby order, for the more easy attaining this end, that the following Regulations be strictly followed and observed :—

- 1st. That the said Company of Artillery do consist of one Second Captain, one Captain Lieutenant and Director of the Laboratory, one First Lieutenant Fireworker, one Second Lieutenant Fireworker, one Ensign Fireworker, four Sergeants Bombardiers, four Corporal Bombardiers, two Drummers, and one hundred Gunners.
- 2nd. That the formation of this Company of Artillery shall be set about as soon as can be after receipt of this ; but as we hope to engage Major John Goodyere (R.A. 37), now Chief Officer of the Train, under the Honourable Admiral Boscawen, to reside abroad in our service, on the same conditions and in the same rank we have engaged Majors Mosman and Lawrence, and as we intend him to command the Military at Bombay, according to the Military Regulations newly made, the formation of the Company of Artillery is to be suspended till the arrival of the said Major ; and in the mean time the officers Atkinson (2) and Madox (3) are to be employed in training, teaching, and disciplining such as may by the Governor, and the first of these officers, be thought fit men, according to these Regulations for the Ordnance Service ; but on the arrival of Major Goodyere, he, with the approbation of the Governor, shall direct the formation of the Company of Artillery in the manner most suitable to the Service ; and in case Major Goodyere should not accept of the proposal made to him by us, or should not arrive at Bombay in the next season after his acceptance of our proposals, the Governor is to appoint the next capable Military Officer who shall be in our service at the time it is known that Major Goodyere either refuses to come into our service, or that the time for his arrival at Bombay is elapsed, to form the said Company of Artillery, with his approbation, according to these Regulations, and to act as Captain thereof, as well as Commander of all the other Military Companies, till the arrival of Major Goodyere, or till the Court of Directors order otherwise.
- 3rd. The officers and others already engaged for the service of the Artillery are to be placed immediately in the several ranks they are engaged for, in which they are to continue till promoted, unless, by committing any crimes or offence, they shall be broke by the judgment of a Court Martial, or dismissed by order of the Court of Directors.

- 4th. That such of those belonging to the Gun-room as have behaved well, and can give proof of being qualified to serve in the Artillery, be admitted into this Company, in such rank as on trial by the Governor, Major, or next Officer of the Artillery may judge them fit for.
- 5th. In case any of the Officers, or others belonging to the Company of Artillery in his Majesty's Service under the command of Admiral Boscawen, should obtain leave to stay in the East Indies, in order to enter into the service of the Company, they shall be admitted into such vacant employments as the Governor and Major may judge them qualified for ; but as it is intended the Second Captain is to be an Engineer, no one is to be admitted into that rank who hath not a competent knowledge and experience in that profession ; it is therefore intended to keep that post open till a person so qualified is named by the Court of Directors.
- 6th. In order to complete the Company of Artillery as soon as possible, a sufficient number of young, healthy, able-bodied, and most sober men from among the Soldiers, or others belonging to the other Companies, are to be taught the exercise of the Artillery, among whom it is recommended to have as many as possible who have been bred to the occupation of smiths, carpenters, or some other trade or business which may be of use in the service of the Artillery, as also such as can read and write, and seem to have the best capacity to learn the several parts of duty proper for the Ordnance Service ; and as soon as they shall have made a sufficient progress in the Artillery exercise, they shall be discharged from the Companies they belong to and entered into the Company of Artillery, and promoted in it according to their merit ; and that there may be always a supply of men proper to recruit the Company of Artillery, the Major is to take care that a sufficient number of men, qualified as above as much as possible, be continually instructed in the Artillery discipline for that purpose, our intention being that the Company of Artillery be at all times complete ; and in case any person admitted into the Company of Artillery misbehave, so as not to be fit to continue in it, he shall, on the judgment of a Court Martial, be obliged to serve the remainder of his time in the Company he was taken from.
- 7th. So soon as the Company of Artillery consists of a sufficient number of Officers and Gunners to do the duty of the Gunner and the Gun-room Crew (which, it is strongly recommended, may be as soon as possible), the offices of Gunner and of all belonging to the Gun-room are to be abolished.
- 8th. The Officers of the Company of Artillery are to take care to teach all persons belonging to the same Company in the practice of Gunnery in general, as the manner of serving and firing all sorts of pieces of Artillery, whether designed for the throwing of shot, shells, stones, grenades, carcasses, or other fireworks. They are to teach them the use and construction of all the instruments used for pointing or levelling great guns or mortars, and to exercise

them at convenient times in the hitting marks, whether point-blank, or at any degree of elevation, together with quick firing, for which a proper quantity of ammunition is to be allowed; they are likewise to instruct them in the making of gabions and fascines, with the manner to use them, in making batteries or breastworks, as also the manner of making instruments, whether of defence or approaches; and they are likewise to teach them the manner to mount or dismount cannon, or mortar, and to remove them from place to place, at which they are to be exercised at proper times, but so as not to over-fatigue them, or give them disgust to the service; but the knowledge of this exercise is necessary, as in time of danger no other assistance can be got to this work.

- 9th. The Artillery Company is to be taught and perfected in the Military exercise of small arms in all its parts, in the same manner as the other Companies are taught, and is to be reviewed in common with the rest of the Garrison towards the end of each month; they shall likewise go through a general exercise of Artillery once in each month, at which the Governor or some of the Council, and the Major or Officer Commanding the Companies, shall be present; and twice, at least, in every year they shall perform a solemn exercise to fire at marks, and throw shells in presence of the Governor, or Second, and the Major, and to encourage such who perform the best, the Council may order suitable premiums.
- 10th. The Company of Artillery is to do garrison duty in common, and in proportion with the other Troops, and so many Officers and Gunners are to mount daily as may perform the duty on the platforms and bastions, as was done by the Gun-room Crew heretofore; and in all respects the Company of Artillery is to be employed as is practised in His Majesty's Garrisons of Gibraltar and Minorca.
- 11th. No deserter from any nation whatever is to be entertained in the Company of Artillery, not even a British subject who may have once deserted from His Majesty, or the Company's service, although he may have been pardoned for his desertion, nor any Roman Catholic; and if any persons belonging to the Company of Artillery marry a Roman Catholic, after marriage such person shall be immediately dismissed from the Company of Artillery, and be obliged to serve the remainder of his time in one of the other Companies, or be removed to some other of the Company's settlements to serve it out there, if the Council think fit.
- 12th. The Major, with the approbation of the Governor, shall regulate the clothing for the Artillery, which is to be of Blue Cloth, out of the Company's warehouses, with Red Cuffs and Facings, and Brass Buttons, with a Cap or Hat which shall be provided by the Major, and paid for by the Company, in the same manner as ordered in the 22nd and 23rd Articles of the Military Regulations; and the said Company shall be armed in the manner most suitable to the climate, and the nature of their service.

- 13th. The Company of Artillery is to be paid in the manner by the Military Paymaster, as directed by the 17th, 18th, and 19th Articles of the Military Regulations.
- 14th. In case of the death of any person belonging to the Company of Artillery, the effects of the deceased are to be taken care of as directed in the 25th Article of the Military Regulations.
- 15th. The Commission, Non-Commission Officers, and Gunners belonging to the Company of Artillery, are to be promoted, broke, punished, or confined, according to the several Regulations made for the Military in the Company's Service at Bombay, with this distinction, that where an Officer or Gunner belonging to the Artillery is to be tried, so many of the Officers belonging to the Artillery as conveniently can, shall be of the Court Martial; and in all tours of duty, the Officers of the Companies and of the Artillery Company are to roll together, according to their rank and seniority, so far as is consistent with the nature of their different services, and are to have the same Military honours done them. As those who serve in the Artillery may be promoted in the other Companies in case of vacancies, so may those who serve in the other Companies be promoted to vacancies in the Artillery Company, but not unless they have made themselves completely masters of the business and service of the Artillery in all its branches, and give good proofs of their knowledge and experience therein to the satisfaction of the Governor and Major, or Officer Commanding the Companies.
- 16th. All the posts where cannons or mortars are mounted, or intended to be mounted, shall be visited once in every week, or oftener, by one of the Commission Officers belonging to the Company of Artillery, who is carefully to inspect the Artillery at that part, that the Ordnance, with their carriages, and other appurtenances, be kept in the best order, and if he observe any damage, decay, waste, or embezzlement therein, whether from neglect, the injury of weather, or other causes, he is to make immediate report in writing to the Major, who is to acquaint the Governor therewith, that such damage or waste may be forthwith remedied, and means used to prevent the like for the future. He is at the same time carefully to observe if there be any damage or decay in any of the fortifications or works, and to make report thereof in like manner through the Major to the Governor, that they may be forthwith repaired.
- 17th. The above Regulations are to be strictly complied with in every Article, and made public in such manner that no one may be ignorant of their contents, so far as he is concerned therein. And as it may be proper to make further Regulations for the Company of Artillery at Bombay than can at present be foreseen, more especially with relation to Detachments sent to the subordinate Garrisons or on parties, it is hereby left to the discretion of the Governor and Council, with the advice of the Major, or Officer Commanding the Companies, to make such further regulations, which they may, from time to time, amend or alter for the good of the

Service, provided such further regulations, alterations, or amendments be not contrary to, and consistent with, the above Regulations.

18th. It is ordered that the Company of Artillery in the East India Company's service consist as follows :—

115 Men, exclusive of the Chief Engineer

London, the 17th June, 1748.

1749. Master-Gunner Hugh Cameron (1) was promoted to be the First Captain and Chief Engineer of the Company (1/1, now 86 R.G.A.), and heads the list of Bombay Artillery officers.
1750. On Captain H. Cameron's transfer to the Infantry, October, 1750, Major William Mackenzie became First Captain and Chief Engineer, retaining command of his company of Infantry; and drawing no pay in the Artillery pay-roll, he has therefore not been included in the List. Major Mackenzie also commanded the troops at Bombay, had a seat in Council, was Clerk of the Works and Master of Arms. He commanded the Company of Artillery until 1752, when Captain James de Funck (6) succeeded him, specially engaged for the post, which had apparently been kept open. *Vide* Para. 5 of the Regulations.
1751. In October, 1751, 30 men of the Train went with a force commanded by Captain Lane against Surat. The attempt was unsuccessful, and the force returned to Bombay, May, 1752.
1754. In May, 1754, 300 Topasses sailed for Madras with a force commanded by Captain Forbes, which joined the army under Major Lawrence. The records say the Bombay detachment was present at the battle of the French Rocks with the French, 16 August, 1754; and in 1755, at the capture of Madura and fortified pagoda of Coilgoody, under Lieut.-Colonel Heron; and at the attack by Colliers on 23 May, when the baggage was plundered, and all loot taken was lost. The detachment returned to Bombay, 10 November, 1755. Officers traceable as having been with this force, Lieut. J. W.

Molitore (8), G. Dagon (45), then serving in the ranks of Captain Ziegler's Swiss company of Infantry.

In December, 1754, a detail of Artillery accompanied a force commanded by Captain H. Cameron (1), which occupied Bancote.

1755. Two more companies were raised between January and December (1/2 and 2/1, now 81 and 15 R.F.A.).

1756. Artillery officers at this time were detailed for duty on bomb-ketches and vessels of the H.E.I. Company's service. Two officers, Lieut. S. Young (11) and Lieut. N. B. Burr (14), are shown as being on board the ships under Admiral Watson that conveyed to Gheriah, in February, 1756, the force commanded by Colonel Clive, which effected the capture of that stronghold and complete destruction of the Mahratta fleet. The Artillery was commanded by Captain-Lieut. Jacob Tovey (R.A. 120).

On the 29 October, 1756, a detachment of Artillery embarked for Bengal. The detachment was composed of men of all three Companies (1/1, now 86 R.G.A., 1/2, now 81 R.F.A., and 2/1, now 15 R.F.A.). The officers were Captain-Lieut. J. Edgerton (26), Lieuts. J. W. Molitore (8), J. Kinch (22), and A. Turner (28).

1757. This detail arrived at Calcutta early in March, 1757. The records say it was present at the capture of Chandernagore, under Colonel Clive, 22 March, 1757, a detachment being left to garrison the place. A return of troops serving under Colonel Clive, dated Camp Chinsurah, 7 April, 1757, shows 1 captain-lieutenant, 3 lieutenants and 58 N.C.O.'s and men of the Bombay Artillery present, the names of the officers corresponding with those found in the records and rolls of the Regiment as serving in Bengal. The records also state that a detachment of the Regiment was present at the battle of Plassey under Colonel Clive, 23 June, 1757; and in Colonel Malleon's "Decisive Battles of India," a Captain Molitore, of the Bombay Detachment (8), is one of the officers stated to have been summoned to the Council of War before the battle. Captain Molitore was killed at the storm and capture of Masulipatam, 7 April, 1759. In a general return of troops serving under Colonel Clive, dated 3 August, 1759, 1 captain-lieutenant, 1 lieutenant, 40 N.C.O.'s and men of the Bombay Artillery are shown as on the expedition to Moorshedabad. No names are given, but the captain-lieutenant must have been J. Edgerton (26). Lieut. J. Kinch (22) was transferred to the Bengal Artillery (5), and was killed at or near Patna in 1763. The surviving N.C.O.'s and men who proceeded to Bengal were transferred to the Bengal service in September, 1758.

1759. On the 12 February, 1759, the Artillery branch of the Service, which, as far as related to the officers, had hitherto been blended with the Infantry, was separated therefrom, and the officers made a distinct corps.

In February, 1759, a force of 850 Artillery and Infantry, under command of Captain Richard Maitland (R.A. 74) was sent against Surat, and took it by storm on 5 March. The Artillery

was Captain Maitland's Company of R.A., but six Bombay officers went with the expedition. Captain L. F. de Gloss (12) was the Engineer, and constructed the approaches, and was left in command of the garrison. Lieuts. W. B. Burr (14), A. Werner (24), E. Hamilton (25), J. Peppard (42) wounded, and E. Smithers (44), are shown as on board the vessels which sailed.

In 1759 the 3rd Company appears to have been reduced.

1763. In October, 1763, a company of Artillery under Captain C. Pemble (33) accompanied two companies of the Bombay Regiment to Bengal. On arrival at Calcutta the following year, the Bengal Government not requiring its services, the Artillery was embarked on board the *York* for Madras, on which coast the records say it was employed until the close of the year, having meantime taken part in the sieges of Madura and Pallamcottah. The only officer traceable as having served in Madras at this time is Lieut.-Fireworker J. Nugent (54). Captain C. Pemble (33), however, remained in Bengal, and having obtained from that Government the brevet commission of Major, was invested with the command of the two companies of the Bombay Regiment of European Infantry. At the battle of Buxar, under Major Hector Munro, 23 March, 1764, he commanded the 2nd line, and was recommended to the Court of Directors for his bravery and good conduct. He also commanded a force sent against Chunar, December, 1764.
1765. On the 22 March, 1765, the third company was re-formed.
1768. Captain L. Nilson (19) was present at the capture of Mangalore, and several officers are shown as on service, probably the same.
1768. On the 6 March, 1768, a fourth company (2/2, now 90 R.G.A.) was raised, and a Battalion formed with one lieutenant-colonel and one major, each holding a company, and in receipt of emoluments from clothing, a third lieutenant being attached to each of their companies.
1771. In January, 1771, a force under Colonel Gordon was sent to reduce the strongholds of the Coolies of Surat. On the 2 February it stormed and took Toolajie Fort after an obstinate resistance. On the 30 April an action was fought under command of Lieut.-Colonel Cay, and the enemy repulsed. On the 7 May Broach was besieged, but siege raised on 19th of the same month. Officers traceable as being with this expedition, Captain L. Nilson (19), Lieut. R. Nicholson (86), Lieut.-Fireworker J. Bellas (97).
1772. Captain L. Nilson (19) and Lieut.-Fireworker J. Bellas (97) were present at the siege and capture of Broach, where General Wedderburn, C.I.C., was killed.
1774. In December, 1774, a force under General Gordon besieged and took Tannah. Captain L. Nilson (19) was the Engineer. Major T. Lee (76) commanded the Artillery; other officers traced as present, Lieuts. J. Nugent (54), W. Brickell (66), Lieut.-Fireworker J. Bellas (97). In the same month, Lieut.-Colonel T. Keating (65) commanded a detachment which took Versova and Karanjah, Lieut. W. Brickell

(66) (specially mentioned) and Lieut.-Fireworker J. Bellas (97) with him.

775. In 1775, Lieut.-Colonel T. Keating (65) commanded the Army ordered to support Ragonath Rao Peishwa. A company of Artillery, commanded by Lieut. J. S. Torriano (80), accompanied the force, and was present at the battles of Hossamlu, Daboun, Hydrabad, and Arras. Lieut.-Fireworker J. Bellas (97) was a.d.c. to Lieut.-Colonel Keating (65). No other officers traceable.

The duties of an Engineer Corps had hitherto been carried out by the Artillery officers, but on the 21 July, 1775, the corps of Bombay Engineers was established, and the following officers were transferred to it :—

(19) Captain L. Nilson, promoted to Major.

(55) „ D. Spaeth.

(73) Lieut. J. McNeill.

(74) „ C. Turner.

(86) „ R. Nicholson.

1779. Lieut.-Colonel G. Dagon (45) commanded the Artillery with Colonel Egerton's force above the Ghauts, Lieut.-Fireworker J. Bailie (122) being his a.d.c. Other officers traceable as being with the force, Captain S. Bowles (62) wounded, Lieut. R. Noyes (103), Lieut. T. H. Makon (105) killed, Lieut. St. L. Thomas (107) killed. The Army having marched through the Deccan, ascended the Bhore Ghat without opposition, but at Tulligaum was opposed by so superior a force it had to retire to Wurgaum, where, after having repulsed reiterated attacks for three days, a treaty of capitulation was made with the enemy—a treaty which was not ratified by the Bombay Government, and which received the pointed disapprobation of the Honourable Company.

1780. A company of Artillery, commanded by Captain J. S. Torriano (80), joined the Army under General Goddard, which arrived at Surat from Bengal. The Artillery of the Army was commanded by Lieut.-Colonel W. A. Bailie (Bengal Arty. 33), and Lieut.-Fireworker J. Bailie (122) was his a.d.c. The operations included capture of Ahmedabad, February, 1780, Bassein, December, 1780, and Arnaul, January, 1781, forcing of the Bhore Ghat, and retreat to Panwell. Captain D. Spaeth (55) was Engineer at the siege of Ahmedabad, and died of his wounds, and Lieut. H. Long (115) was wounded.

1783. Captain J. S. Torriano (80) commanded Artillery under General Matthews, which took Onore on 1 January, 1783. Several officers took part in the subsequent operations at Anantpoor and Bednore. At the disaster at Bednore, Captain J. Jackson (101), Lieuts. C. W. M. West (132), L. Olivier (137), R. Bell (145), T. Walton (147), A. Torriano (148), J. Griffith (149), were taken prisoners by Tippoo. Captain Jackson (101) and Lieut. Olivier (137) were supposed to have been poisoned. The remainder were released at the peace, and rejoined. Captain J. S. Torriano (80) commanded the garrison

of Onore during the siege and blockade, which together lasted from 14 May, 1783, to 27 March, 1784. In spite of orders from the Bednore Committee to capitulate, Captain Torriano (80), in the face of very great difficulties for want of supplies, defended the position against an army of 10,000 men, with a garrison which, at the commencement of the siege, only numbered 743 men, 42 of whom were Europeans. He held the place until peace was established, the garrison being reduced to 238 persons when landed at Bombay on the 18 April, 1784. Lieuts. J. Courtoy (119) and Jeremiah Hawkes (121), wounded, are mentioned as being in Onore with him.

1783. In March, 1783, Captain J. Bellas (97) commanded Artillery at the taking of Mangalore, Lieut. J. Thompson (118) also present. The latter was also at Mangalore when it was besieged by Tippoo, and was wounded.

Lieut. Seton (142) is mentioned as being on board H.E.I. Company's vessel *Ranger* in the desperate fight with the Mahratta fleet off Geriah, 8 April, 1783. Lieut. Seton was wounded.

1790. Captain J. Thompson (118) commanded the Artillery, said in Lieut. Moor's narrative to have consisted of one European and two native companies of Artillery, which formed part of the force under Captain Little that left Bombay in May, 1790, to co-operate with the Mahrattas' and the Nizam's armies. The operations included the siege and capture of the fort of Darwar, under Colonel Frederick in February and March, 1791, capture of Hooly Honore and Simoga, December, 1791. The other officers with the Artillery of this force were Lieuts. W. Ince (155) and C. W. M. West (132), the latter having thus an opportunity of revisiting under happier circumstances the scenes of his confinement, and weary marches, whilst a prisoner of Tippoo in 1783.

1790. Four companies commanded by Major R. Jones (98) took part in the Mysore War and the siege of Seringapatam under Lord Cornwallis. Officers who certainly served in this war were Captain J. Bailie (122), Lieuts. W. Hall (130), R. Bell (145), A. Torriano (148), J. Griffith (149), S. Raester (150), W. Ince (155), S. Carter (156), Lieut.-Fireworkers J. Creasy (169), J. Eyles (171), A. G. Fisher (174), Joshua Hawkes (178), and several others are shown as on service, probably the Mysore war.

1792. In February, 1792, Captain-Lieuts. S. Carter (156), R. Blackall (165), and Lieut. J. Eyles (171) were present at the capture of Cannanore.

1796. A fifth company (3/1, now 30 R.F.A.) was raised on 24 May, 1796.

At the capture of Colombo, December, 1796, Captain J. Griffith (149), Captain-Lieut. S. Carter (156), Lieuts. J. Eyles (171), G. Warden (176), were present; and Lieuts. J. Eyles (171) and Joshua Hawkes (178) at the taking of Point de Galle in the same month.

1797. A sixth company (3/2, now 31 R.F.A.) was raised on 13 October, 1797.

1799. The 3rd Company (2/1, now 15 R.F.A.), Captain J. Bailie (122), the 4th Company (2/2, now 90 R.G.A.), Captain A. Torriano (148), the 5th Company (3/1, now 30 R.F.A.), Captain-Lieut. J. Eyles (171), the whole commanded by Major G. A. Lawman (102), took part in the Mysore War, were at the battle of Saidashur under General Stuart, 6 March, 1799, Lieut. J. Lighton wounded; and were present at the siege and fall of Seringapatam under General Harris. Captain A. Torriano (148) of the 4th Company, and Lieut. W. Macredie (177) of the 5th Company, were killed on the same day, 18 April, 1799. Other officers who certainly served in this war, Major J. Thompson (118), Captain J. Griffith (149), Captain-Lieuts. S. Carter (156), J. Comyn (170), J. Eyles (171), Lieuts. D. Urquhart (172), A. G. Fisher (174), H. Hessman (175), G. Warden (176), G. B. Bellasis (180), C. J. Bond (182), H. A. Shewcraft (183), but several others shown as on service were probably employed in Mysore.
1800. Captain-Lieut. J. Eyles (171) was at the reduction of Mangalore, capture and recapture of Jemaulabad in 1800; Major J. Thompson (118) and Lieut. G. Warden (176) at first capture of Jemaulabad.
- 1801-1802. The 1st Company (1/1, now 86 R.G.A.), Captain G. Powell (158), and the 2nd Company (now 81 R.F.A.), Captain-Lieut. W. Smith (173), formed part of Major-General Baird's army in Egypt. Other officers, Lieuts. G. Warden (176), C. J. Bond (182), and T. Morse (187), taken prisoner, and sent home to be exchanged.
1802. A seventh company (4/1, now 91 R.G.A.) raised on 16 March, 1802.
1803. The 3rd Company (2/1, now 15 R.F.A.), Lieut. R. Whish (190), was at the battle of Assaye; and as Lieut. R. Whish (190) was also at the battle of Argaum and taking of Gawilghur, it is probable that the 3rd Company was there also. The 5th Company (3/1, now 30 R.F.A.) was at the battle of Assaye, Lieut. T. Morse (187). Other officers who are traced as engaged in the operations in the Deccan and Guzerat, which included the taking of Ahmednugger, and Jaulna, Sunkheira in Kattywar, July, 1802, siege and capture of Broach under General Woodington, August, 1803, and capture of Baroda: Captain W. 1807. By G.O., 25 June, 1807, it was ordered: "That in future when a vacancy occurs in the command of a Battalion of Artillery, the senior Lieut.-Colonel succeeding to such command shall not in consequence be promoted to the rank of Colonel, but shall be called Lieut.-Colonel Commandant of the Battalion, until by General Brevet Promotion in His Majesty's Army, he becomes entitled to be promoted to the rank of Colonel by the date of his Commission as Lieut.-Colonel in the Company's service." Under this order the following Lieut.-Colonels were promoted to Lieut.-Colonel

- Commandant instead of Colonel : H. Hessman (175), 19 June, 1820 ; G. B. Bellasis (180), 1 May, 1824 ; C. Hodgson (186), 30 September, 1825 ; R. Whish (190), 23 September, 1826 ; F. H. Pierce (191), 28 September, 1827.
1809. In consequence of the great want of Artillery officers, the Government of Bombay transferred nine officers from the Infantry and gave them commissions in the Artillery. Their names will be found in the supplementary list on p. 114. These appointments were not approved of by the Court of Directors, and were cancelled in 1810.

- Captain R. Macintosh (192), with a detail of Artillery, formed part of the force under Lieut.-Colonel Keating, H.M. 56th Regiment which, in September, 1809, took possession of the Isle of Rodriguez, and reduced the Isle of Bourbon. He was also present with the force under General R. Abercrombie, at the second assault and occupation of Bourbon in July, 1810, and at the capture of Mauritius, December, 1810.

AGENTS FOR GUNPOWDER.

The manufacture of gunpowder was being carried on in Bombay in very early days, as Captain and Chief Engineer L. F. De Gloss (12) was brought to notice for improvements in the method of manufacture in 1759. On 9 and 19 Jan. 1786, great explosions took place at Mazagon (cause unknown); the buildings were entirely destroyed, and 56 lives lost. Repairs and improvements cost Rs.1.20.805. The first agents were medical officers, Captain Manson, the first Artillery officer, being appointed in 1821.

officers and men of the 1st or Eagle Troop Bombay Horse Arty. for their excellent and gallant conduct throughout the campaign. Went with a mission to Poona as surveyor and draftsman 1770, at capture of Broach Nov. 1772, surveyor of fortifications at Bombay 1772. o.c. Arty. Surat 1774. Throughout Col. T. Keating's (65) campaign against the Mahrattas 1775, engagement of Hossamlu 19 Apr. 1775, battle of Daboun. Meadows to command Arty. of the Bombay army in Mysore War 1782, capture of Rajamondroog and advance to river Mergui, o.c. Arty. capture of Onore Jan. 1783, wounded. Left in command of Onore. His defence of it against an army of 10,000 men is described as being "one of the finest episodes of the war." On Apr. 30 the Bednore Committee ordered the evacuation, which order he refused to obey. The siege lasted from 14 May-25 Aug. 1783, and the blockade from 26 Aug. 1783-27 Mar. 1784, in all ten months. Cap. Torriano again wounded on 26 June. The defence was carried on under the most pressing events arising from famine, sickness, and desertion. The garrison was assisted by H.E.I. Company's ship *Wolfe*, and occasionally received supplies by a Company's cruiser, but the want of provisions was at one time so serious that a number of horses were killed and salted as a last resource, rather than surrender to Tippoo's forces. The gallant garrison was at length relieved by the peace of 1784, and returned to Bombay, reduced from its original strength of 743 men (of whom only 42 were European N.C.O. rank and file) to 238. Desp., Brev.-m. *Lond. Gaz.* 25 Nov. 1783, says, "A Cap. Torriano, commandant of Onore, forced the Ghats and took possession of the city of Bednore." Same gazette, "Part of the garrison of Bednore escaped to Onore, which is under the command of Cap. Torriano, who, by his resolute and prudent conduct, prevented the panic from infecting his garrison." res. 19 Aug. 1787. *Commanded Kensington Volunteers* 1824. d. 27 Sept. 1825 at South Kensington.
